condescend to talk to them. Who knows, perhaps in a couple of years they'll dig up a big bug who won't tell them to go take a long running jump?

You may quarrel with the Townsendites' bookkeeping, with their way of handling the contributed dimes of thousands of trusting oldsters, with their failure to explain where they're going to get the billions to pay those gaudy pensions or how the provisions of the distribution are to be enforced, but at least the leaders are too proud to endanger their social proud to endanger their social positions by being caught chit-chatting with a lot of congress-

Reported by A. F. L.

WASHINGTON, May 28.—(8)—William Green, president of the American Federation of Labor, estimated today that "the striking rise in production and in building generally" during April put 726,000 unemployed back to work, bringing the federation's estimate of total unemployment below 12,000,000 for the first time since 1921 first time since 1931.

first time since 1931.

The federation estimated 40.845,000 persons were at work and that the number out of work had been reduced from 12.183,000 at the end of March to 11,506,000.

Green expressed concern, however, that re-employment was not keeping pace with business recovery and concluded "if American business is to justify itself as a system which can provide for the nation's needs, we must look forward to the time when all those who want work will be able to find jobs producing goods or services."

Acquire Title to National Forest Lands.

Condemnation of 60,599.58 acres of in north Georgia, was started yester- tice." day by Assistant United States Attorney Harvey H. Tysinger.

This land is inside of the present boundaries of the forest and is the subject merely of friendly proceedings between the United States government and the Pfister & Vogel Co., of Milwaukee. The company has owned the land for 25 years and bought it to make tannic acid from chestnut trees

n that area.

Railroad lines are distant and the mpany, consequently, has never undertaken active operation of the tract. Soon after the passage of the Weeks law in 1911 authorizing the acquisition of land by the federal government for national forest purposes, the United States Forest Service bought 18.078 acres of the Pfister & Vogel holdings which are within the confines of the old Cherokee national forest, one section of the Chattahoochee forest, which will be formally established on July 1.

The land now being acquired is the remainder of the tract with the exception of approximately 300 acres donated for the establishment of the Vogel State Park. The purchase price of the entire acreage is said to be in the neighborhood of \$300,000.

The most valuable timber species on the tract are poplar, red and white oak, basswood, ash, white pine, cherry and walnut. lertaken active operation of the tract

H. O. Stabler, deputy regional su-pervisor of the forest service, said yes-terday:

"As soon as the forest service acquires title to the property it will be examined by specialists in forest management to determine a plan of management for a sustained yield of

management to determine a pian of timber. Trees ready for market will be sold to private lumber operators who will log them under the supervision of government foresters."

Twenty-five per cent of the gross receipts from national forests each year are paid by the United States Forest Service to the state treasurer for the benefit of roads and schools. The money is distributed to the counties in which the forest lands lie on an acreage basis. In addition, the forest service expends 10 per cent of gross receipts from national forests on forest road and trail construction. None of this money is spent outside the state where it was earned.

WELL-TO-DO RELIEFER' SENTENCED IN FRAUD

BRIDGEPORT Conn., May 28.—
(P)—Stephen Hovanecz, 49, charged with accepting relief from the city and state while he had a hoard of more than \$6,000, was sentenced to jail for a year and fined \$600 today in city court. Six months of the sentence was suspended.

He pleaded guilty to three counts of obtaining money under false pretense. Judge Frank Janroczy termed Hovanecz "one of the most contemptible criminals to be brought before me."

The court ordered the city and state reimbursed for about \$1,750 which the prisoner received for relief.

MRS.ROOSEVELT PRAISED BY WOMAN HISTORIAN

ATLANTIC CITY, N. J., May 28.

(P)—Mrs. Mary R. Beard, historian and feminist, tonight named Mrs. Franklin D. Roosevelt as an example of the "indomitable spirit in America among the supposedly sacrificial sex."

The President's wife, she told a dinner gathering at the national conference of social work, "has refused to be cowed on her humanistic course by criticis of her social' daring."

She named Mary Van Kleeck, of the Russell Sage Foundation, in New York, and Mrs. Robert Low Bacon, of the National Women's Republican Club, as other similar examples.

"It won't be hard, cooking just for two!" says the bride, optimistically. The more experienced housewife is apt to hide a little smile at this remark, knowing that cooking a small amount of food presents its own problems. It takes as much time and care to plan and cook a meal for two as for a larger number. And one's choice in the meat dish particularly seems to be limited. A roast may last too long. Yet one cannot always serve chops and steaks!

It isn't only the bride who faces this problem. There is the older woman whose family has grown up and left home and who finds herself, after years of preparing meals for a hungry group, again "cooking for two."

She must learn all over again, in many ways, and change her cookery habits of years.

Many Helps.

Fortunately, in this day of kitchenettes, of small families and of business girls who cook not for two but some times just for one, there are a variety of ways of solving the problem. There are many small cuts of meat to serve for two, without waste and without too much "leftover." And there are many new and delicious ways to use these savory remnants of roast or steak.

Ground meats may be purchased in the remove with salt and pepper and turn carefully when the patties are nicely browned on one side. Then continue cooking until done. This will require about 15 minutes.

Fillet Mignon With Bananas.

This is another dish for the dinner for two. Have the fillet cut one-inch thick. Dip each fillet into melted unter and broil from 8 to 10 minutes. When broiled, place each fillet on a round of toast of the same size. Sprinkle each fillet witer and broil from 8 to 10 minutes. When broiled place each fillet on a round of toast of the same size. Sprinkle each fillet witer and broil from 8 to 10 minutes. When broiled place each fillet on a round of toast of the same size. Sprinkle each fillet witer and broil from 8 to 10 minutes. When broiled place each fillet witer and broil from 8 to 10 minutes. When broiled place each fillet witer and broil from 8 to 10 minutes. When b

of roast or steak.

Ground meats may be purchased in any amount, however small, and they are economical as well as very good, for they are made from the less-demanded cuts of meat. These cuts are well flavored but they contain connective tissue, which is broken up by grinding and the meat can, therefore, be quickly cooked. Broiled lamb patties served with fried potatoes are a tempting dish.

Lamb Patties With Fried Tomatoes.

Have the ground lamb made into of roast or steak.

Have the ground lamb made into patties and wrapped with slice of bacon. Place on a wire rack and broil (If a wire rack is used, then it is easier to turn the patties than if they are placed directly on the broiler

LONDON, May 28.—(P)—Britons wondered whether King Edward VIII intends to take still another slap at tradition by dispensing with some of the historic ceremony of his own coronation in Westminster Abbey, set today for May 12, 1937.

The announcement of the coronation date was contained in the official gazette and the date will be proclaimed in a colorful ceremony tomorrow in the center of London.

The date was chosen at a meeting of the privy council. Early in May was selected, it was explained, so foliage of trees would not spoil the view of millions of witnesses along the route of the king's procession.

ANGOLA, La., May 28.—(4?)—
State prison guards killed a youth mistaken for their quarry today in a manhunt for a life termer who escaped after murdering a prison captain and the official's wife.

The guards shot down Willy Wade, 17, when the boy ran across their path on a highway, seven miles from Angola.

Earlier, Tom J. Fluitt and Charles McCory, guards taking part in the hunt, were wounded by the accidental discharge of a posseman's gun.

Wade was slain when a posse of 200 closed in on a nearby swamp where the fugitive, Wilfred Lindsly, 23, was believed cornered.

Lindsly killed Cantain and the mixture, stirring frequently until the right consistency. Published Sunday.

NEW YORK, May 28.—New-fledged republicans, that is, persons who voted for Roosevelt in 1932 but would vote for a republican today, prefer Governor Alf M. Landon for the republican nomination, according to a survey being conducted by the American Institute of Public Opinion.

The survey is part of a complete nation-wide poll of republican voters, which will be published Sunday in a large list of newspapers as a last-minute glimpse of republican sentiment before the national convention.

"New" republicans, the Institute reported today, are 53 per cent in favor of Governor Landon. Among five other leading candidates they distribute the rest of the vote as follows: Borah, 27 per cent; Knox, 8 per cent; Hoover, 6 per cent; Vandenberg, 5 per cent, and Dickinson, 1 per cent. The complete poll will reveal how all classes of republicans view the nomination race.

SYRACUSE, N. Y., May 28.—(P)—
Election of the Rev. Henry Buck
Master, of Philadelphia, Pa., as moderator of the coming year highlighted the opening session today of the weeklong 148th general assembly of the Presbyterian Church in the United States of America.

Dr. Master, secretary of the board of pensions for the past 17 years, succeeds the Rev. Joseph Anderson Vance, of Detroit, Mich.

He was given 508 of the 885 votes cast by the assembly delegates as compared to 251 for the Rev. Frederick L. Selden, of Chicago, Ill., and 126 for the Rev. Samuel J. Allen, of Carson, N. D., nominated by the fundamentalists.

Dr. Master held pastorates in Buffalo and Fort Wayne, Ind., and since 1911 has been general secretary of the Presbyterian Board of Ministerial Relief and Sustenation, now the board of pensions.

TT took more than just good performance to win over 2,500,000 Ford V-8 fans I in less than four years. It's an entirely different kind of performance that did it!

It's the V-8 engine, first and foremost. The smoother, quicker flow of its 85

horsepower. Its pick-up and getaway in traffic. Its easy, effortless pull in the open and up the hills. For you can't expect any less modern engine to act or feel like a V-8. And you don't find another V-8 car below \$1645 today. Then there's riding comfort. Ford springbase is 123"-almost a foot longer than

JACKSON SEEKS PAVING TO SPALDING BOUNDARY

JACKSON, Ga., May 28.—An extension of paving from Jackson to the Spalding county line will be made during the summer, members of a delegation that appeared before the state highway board during the week were told. Paving on this route from the Ocmulgee river to Jackson is expected to begin immediately.

The project was advertised several weeks ago and with the release of federal funds construction will probably begin in a few days on the 8.666 miles. The link from the Ocmulgee river to Monticello has already been paved.

Several portions of this cross-state highway have been paved, and when the link from the Ocmulgee river to the Griffin border is hard-surfaced it will serve a large section of middle Georgia.

NEWS BEHIND THE NEWS

DECLINE WASHINGTON, May 28.—The political significance of Dr. Townsend's walkout on Washington is probably being Reserved. (Dizzy) Zioncheck, the

A fairly definite estimate of the political influence of the real estate hysician was afforded in the California primary. Returns from all but

per cent of the precincts show: President Roosevelt, 769,000; EPIC, 101,000; Townsend, 59,000; ombined republican vote, 588,000.

The figures indicate that nothing Townsend could have done with his California votes that day would have made any difference. If he had swung them all to the republicans; if he had combined with the EPICS; if he had cast them all for a third party, the result would have been the same as if he had thrown them out the window

Note-The Townsendites naturally say their bad showing was not a fair representation of their asserted strength. There is something in their various arguments. But elections are always decided on the numbers of voters who go to the polls on a given day.

NONCHALANCE The California figures explain why the New Deal house leaders have chosen to turn their coldest shoulder to the doctor. They do not care very much what he does, Their purpose is not to make a martyr out of him before elections. This is why they are talking about sending his contempt case to the

Ordinarily, they themselves would punish him swiftly for failing to answer the questions of a house committee. But if they send the case to the courts, the local district attorney will think about it for a while, then seek an indictment. The grand jury hearings will be secret and later an indictment will be handed down. In the ordinary course of legal events the courts will get around to trying Dr. Townsend along about next year.

In the meantime, he will get a minimum of publicity and no opportunity to go out and raise a new defense fund.

DEPRECIATION If Townsend is saved from martyrdom and publicity for six months more, the committee investigators privately believe his movement will develop further troubles of its own. What they are banking on is this: Evidence before the committee indicated that Townsend organization

receipts have fallen off to a paltry \$60,000 a month. The investigators doubt that this is enough to keep the organization going. At its peak the intake was about \$120,000 a month. In those big money days, the salesmen were on a commission basis. Now they have changed to a salary basis. There is a pay roll to meet on Satur day nights. Any businessman knows what this means.

FIRMING? Incidentally, the California primary situation has also encouraged a belief here that irregular radicalism is weakening throughout the country. The losses shown by both Townsend and Sinclair apparently have not been absorbed by any other irregular political group.

No new coming movement is arising to take their place, so far as anyone can now see. The disintegration of these forces has merely caused gains by democrats and republicans. The fact that Father Coughlin as well is having financial troubles has caused a general impression here that people are getting their feet on the ground again, that the day of this type of agitation is dwindling.

Frank Lowden is being promoted for more republican lobs than Postmaster General Farley now has. There DREAMING an inside whisper that he will be the vice presidential candidate with Governor Landon; another that the Lucas-Borah forces will get Landon support to make Lowden the permanent chairman of the republican convention: a third that Lowden will be made the next chairman of the

republican national committee. If there is anything in any of the rumors, it is that Lowden's name carries weight in the farm belt possibly more than that of any other man, and all republicans want him up front somewhere.

For instance, they dream pleasantly about the effect of a Landon-Lowden ticket (the alliteration alone is enough to warrant it), with Borah campaigning for it in the farm regions.

RESTRAINT It sounds like a jest, but actually there was considerable agitation inside the senate appropriations committee favoring the allocation of relief funds to Mr. Ickes so he could dole it out to Mr. Hopkins. A lot of senators objected to giving Mr. Hopkins full control and

explored every means of restricting him before finally deciding to let the RAINBOWS The 1936 style for political platforms was set by the

Good Morning BY LOUIE D. NEWTON. RUDOLPH OTWELL,

Over at Bremen, Ga., lives a young American by the name of Rudolph Otwell. He has just completed the eighth grade of his school work and in the eight years he has never once been the eight years he has never once been absent or tardy. Please take that ineight years without being absent once or tardy once I wonder how many other boys and girls in Georgia can match Rudolph's record. I would be glad to hear from them.

When H. D. Hatchett, superintendent of schools at Bremen, read that statement to the large audience of people strending the commencement exer-

statement to the large audience or people attending the commencement exercises at Bremen on Tuesday night of this week it was wonderful to note the effect upon the people. Old men and young men applauded this remarkable record of attendance and promptness.

A businessman remarked to me as we came away from the occasion, "I came away from the occasion, "I would like to have that boy in my organization." I am happy to observe the emphasis

I am happy to observe the emphasis which the leaders of youth are giving to the basic matters of integrity and fidelity in dealing with the every-day affairs of life—the common tasks of worth-while living. One recalls how Benjamin Franklin insisted upon such qualities as essential in building the foundation of our nation life, and how subsequent leaders of great wisdom, such as Colonel Charles Lindbergh, have likewise emphasized these elemental principles.

Good Hitters Are Not Developed By Tossing Over Easy Ones

By ROBERT QUILLEN.

The strangest paradox in this land of strange things is the fact that education has been the means of improving almost everything except education.

The system now used in nearly all of the public schools and colleges rewards duliness and laziness and penalizes ability.

That, of course, is consistent with the popular theory of democracy.

If we cannot achieve equality by lifting up the low, we must achieve it by

pulling down the high. It may be good democracy, but it makes our schools much less useful than they could be, wastes a large portion of the money spent on education, and denies adequate training to those who deserve it most. Do what we will to establish equality, the fact remains that some youngsters are smarter and more industrious than others. They are

eager to learn, and they learn fast. Any school system governed by fairness, good sense, and a regard for the nation's welfare, would separate these superior youngsters from the less gifted, encourage them to learn as much as they can, and thus provide for the maximum development of our greatest national resource. But that would not be democratic. It would recognize the fact that the brains of youngsters are unequal.

So we lower the standards and slacken the pace to fit the dull wits of the stupidest and the laziest, and the smart ones are held back until the dumb catch up. . They get little or no help from their instructors because they don't need it. The work is pie for them. Thus the millions spent for education are devoted chiefly to the

benefit of those who do not wish to learn or cannot learn, and the ones who deserve the most instruction and could profit most by it are hobbled and neglected. Do you remember how the old silent movie made you suffer by leaving the printed caption on the screen until the slowest reader in the audence had spelled out the words? That was good business, for the slowest readers were the most loyal patrons, but it isn't necessary to

manage free public schools that way. A land that possesses fast trucks is wasting its resources if it makes them travel the pace set by horse-drawn wagons.

Government property may be sold to prevent waste, Judge Sibley ruled. TVA attorneys have argued that the power to be sold in Georgia is merely surplus government property of which the government has a right to dispose. Of this disposition of government property, Judge Sibley said:

"After the World War the United Tatter the world war the United States had vast amounts of surplus property of general utility and sold it in various ways at wholesale, in job lots and even at retail, in such markets and to such customers as seemed proper. No attempt, however, was made to open a retail store to be run for years with a constantly replen-ished stock, paying no taxes or liished stock, paying no taxes or li-cense fees. The federal penitentiaries are full of human and economic val-ues going to waste and there is earnest effort to employ usefully the inmates. "The things thus produced as a by-product of fumbling human justice can be sold if not used by the United States but the congress has always been solicitous to avoid competition

with outside producers.
"The United States has purchased vast forest reserves in order to control flood and promote navigation and inevitably trees grow in them. These need not be left to die and rot, but may be sold and no doubt a railroad may be built to carry them to a market, but no one would doubt that congress could establish planing mills and chair factories in our cities under guise of selling timber."

Text of Judge Sibley's Ruling In TVA-Power Company Case

The complete text of Judge Sib-ley's decision in the Georgia Power Company-TVA case is as follows:

The original bill removed from a state court seeks to enjoin Tennessee Valley Authority and Catoosa Farmers' Co-operative Associtoosa Farmers' Co-operative Association as trespassers from putting wires for transmitting electricity above and aeross the wires of petitioner, to enjoin them and certain individuals from making false and fraudulent representations about the petitioner's business, and from attempting to organize a boycott of it. An amended bill seeks to enjoin the TVA from constructing any transmission or distribution lines in Georgia, especially any over state properties or highways to do a business in competition with petitioner, and to enjoin the other defendants from purchasing power from TVA; and for a declaration that the attempted business in Georgia of TVA is illegal, as being beyond any authority conferred being beyond any authority conferred on it by congress and beyond the federal constitutional power.

The general contention is that TVA has no source of power in or near Georgia, and intends to purchase power from Tennessee Electric Power Company and distribute it in Georgia without the consent of the state and without submitting to the invisidiction of the Georgia Public jurisdiction of the Georgia Public Service Commission or the payment of taxes, and that it is seeking un-lawfully to take away the customers of petitioner, such activities being beyond the power given by congress and beyond the power of congress to

TVA Alone Answered.

The Tennessee Valley Authority alone has answered. Besides denying most of the allegations concerning it, it asserts that it is selling surplus power arising at Wilson dam, but expects in a few years to have more arising at other dams nearer to Georgia; that the northwest Georgia territory here in question was Georgia territory here in question was refused service by petitioner. Geor-gia Power Company, until TVA was approached by towns and farmers therein to sell them electric current and TVA agreed to furnish it, when activity of petitioner first began in the rural sections; that the line un-der construction is to be fed tempoder construction is to be fed temporarily by exchange of current with Tennessee Electric Power Company as already arranged for, but ultimately by lines of TVA connecting directly with its dams. The line is to be turned over to North Georgia Membership Corporation, a nonprofit co-operative association, so soon as the latter, already chartered, shall be orlatter, already chartered, shall be organized, under a long-time purchase contract. It admits that it claims not to be subject to taxation or reg-ulation by the state of Georgia, but denies that it has attempted or authorized any interference with petitioner's contracts with customers of sought to organize any boycott against it or trespassed in any man-ner upon its property or rights.

Findings of Fact. The evidence is in many points in complete and unsatisfastory. The answer is not sworn to and operates only as pleading. The facts can be stated only tentatively and for present purposes. Georgia Power Com-pany has a franchise to make and sell electric power throughout the state, has made a large investment and has given good service at low rates com-pared to many others. It has not an exclusive franchise, but there are an exclusive franchise, but there are other companies operating in parts of the state and all are subject to competition. Rates to consumers are fixed by the Georgia Public Service Commission and cannot be departed from except by leave of the commission. The Georgia Power Company has been and is rendering service to a number of towns in the northwest part of the state, but had declined before 1935 to put in rural lines there.

lines there. During 1935 individuals and towns in that territory sought to get electric current from TVA, which consented to supply them. After this, the power company became active in extending its lines, and there has arisen an acute and even bitter risely touching which source of source. arisen an acute and even bitter rivalry touching which source of power shall be used. It is probable that untrue statements have been made and unfair efforts to upset rights-of-way and service contracts by persons on both sides, but the evidence does not establish authorization or knowing ratification by the power. knowing ratification by the power company or by TVA.

First Right-of-Way.

First Right-of-Way.

As to the crossing of the transmission lines the Georgia Power Company has a first-acquired right-of-way easement over the lands of one Russell and first erected its line. The easement is not expressed to be exclusive. Russell later gave a similar easement to TVA crossing the former. There is a contention that the crossing really takes place over an old roadway the title to which is in the United States, but the evidence is not clear that this is true. There will be no actual interference by one wire with the other if they are properly installed and maintained.

The wires of TVA have been put across the Western & Atlantic railroad, which belongs to the state of Georgia, and across certain highways owned in fee by the state without asking the state's consent but without objection being made. Rights-of-way have been obtained as to all privately owned land. The Tennessee Valley Authority has surplus current at Wilson dam and an arrangement for delivering it to Tennessee Electric Power Company there in exchange for like amounts of current less transmission losses at Ooltewah, Tenn., at which point the TVA transmission line in Georgia ends. There is no proper proof of TVA's future intention as to other dams and transmission lines, but it is likely that they are as set forth in the answer.

Purpose of Corporation.

There is evidence that the North

they are as set forth in the answer.

Purpose of Corporation.

There is evidence that the North Georgia Membership Corporation has been chartered under Georgia laws to buy and operate the lines under construction by TVA and to distribute to rural customers electric currents at rates and on conditions to be named by TVA. The contract contemplated is described as "a standard power contract," which seems to mean one not only putting the fixing of consumers' rates at the discretion of TVA but also the financial management of the Membership Corporation. The rates hitherto fixed by TVA for resale to consumers have been materially lower than those fixed for the Georgia Public Service Commission. The TVA also contemplates furnishing current to the city of Dalton and other municipalities when their contracts with Georgia Power Company shall expire and when a modus vivendi between the two runs out a few months hence.

Conclusions of Law.

The Georgia Power Company has a franchise to do the business involved in the territory in question, but it has no monopoly. It cannot object, for example, to competition by North Georgia Membership Corporation, also chartered by the state to do such a business. But its franchise exercised by it in the territory does give it a standing to question the right of TVA to operate there if TVA has no lawful right. Reserving for the present the question of TVA's right, I hold that no trespass is Purpose of Corporation.

shown by the crossing of the Georgia Power Company's right-of-way by the TVA wires.

The landowner, Russell, in giving Georgia Power Company a right-of-way to string wires across his land could still use his land in any way that did not obstruct the easement he had granted. He could run telephone or other wires of his own over or under the power company's wires in a safe and proper way without the consent of the latter. He could also grant to TVA the right to do so. If there should be interference of course the latter easement will have to yield to the older one.

Question of Trespass.

Whether the crossing of the railroad and highways, title to which is in the state of Georgia, be a trespass or not is a thing of no interest to Georgia Power Company. It cannot complain of that. Whether if TVA rather than North Georgia Membership Corporation and the several towns shall be found retailing power to individual consumers it will be subject to have its rates fixed by the Georgia commission, and whether if TVA wholesales power to the Membership Corporation and the towns under contracts which undertake to fix the rates to consumers such rates will be governed by the contracts or by the action of the Georgia Public Service Commission, are questions that must wait until they take concrete form

No Embarrassment Desired.

No Embarrassment Desired.

Despite the breadth of the constitutional provision for disposal of federal property and of the discretion of congress necessarily consequent, it is to be implied that congress will not needlessly embarrass or injure the functions of the state. I do not therefore think TVA could be authorized to do all that it is charged with intending to do. Nor do I think it has been so authorized. Section 10 of the Tennessee valley act as amended, 16 U. William A. Irvin, president of United States Steel Corporation, said the corporation's operations are running at the highest rate of capacity since June, 1930.

"Pent-up requirements and repairs," he said informally before the meeting, "are beginning to manifest themselves in orders which should keep steel plants fairly active for some time."

He said later during his address, "we are emerging from an era of almost seven years of depression."

He warned of increases in iron and steel imports, however, and urged "tariff rates... high enough to protect American industry and labor against the cheap costs and pauper labor rates of foreign countries."

Wage Cuts Hinted.

Should these imports be allowed to expand indefinitely, he added, there is only one answer: "A lowering of The great question which now presses for decision is whether TVA is so clearly without statutory or constitutional authority to do what it is about to do in Georgia as that it should be halted in its tracks. There has been some argument that interstate transmission of electricity is interstate commerce but its local distribution is domestic commerce, but I think the matter immaterial.

one would doubt that congress could establish planing miles and chair factories in our cities under guise of selling its timber. These illustrations suggest that there must be limits as to the ways in which electricity may be disposed of. The limits of decency are for congress to consider. Those of power alone are for the courts. I cannot say that any limit of power has yet been transgressed by TVA in this case.

Preliminary injunction is accordingly refused, but with leave to either party to apply further in case of any future fraudulent or false statements to present or prospective customers made by the Authority or connivance or encouragement of the other, or of any wrongful attempt by either party to induce customers or grantors of

ized. Section 10 of the Tennessee valley act as amended, 16 U. S. C. A., Section 831 (i) authorizes the sale of surplus power according to the policies therein set forth by contracts not exceeding 20 years, giving preference to states, counties, municipalities and co-operative organizations not organized or doing business for profit. A policy is expressed of promoting the use of electricity on farms within a reasonable distance of transmission lines, and of constructing transmission lines to farms and small villages not otherwise supplied with electricity at reasonable rates.

Thus to encourage the development of a new market for electricity rather than to invade an old one seems to be most considerate of existing interests and not for detriment to the state. That the new market is small and not immediately profitable to the seller of electricity is for the consideration of congress. The policy of selling by preference to those who through middle-men pass all profits to the consumer does discriminate against most power companies, but it seems to me to be within a seller's right to choose his customers. Power companies are not altogether ruled out. The provisions of the section which authorize the TVA to make rules and regulations about the distribution of power sold and rates for the resale of it go beyond the usual rights of a seller, and may on a proper challenge be found unreasonable in themselves or in their exercise, but their failure would not nullify the entire act. The lines which TVA is now building, whether for its own use or for transfer to North Georgia Membership Corporation are within its lawful power. That for the present they will be fed by current interchanged with Tennessee Electric Power Company is no objection. The interchange enables TVA to sell its power at Wilson Dam, which otherwise would be unsold. The interchange is a mode of sale.

Sale of Surpluses.

After the World War the United States had vast amounts of surplus property of general utility and sold it in various ways at wholesale, in job lots, and even at retail in such markets and to such customers as seemed proper. No attempt, however, was made to open a retail store to be run for years with constantly replenished stock, paying no taxes or license fees. The federal penitentiaries are full of human and econnomic values going to waste, and there is earnest effort to employ usefully the inmates. The things thus produced as a by-product of fumbling human justice can be sold if not used by the United States, but the congress has always been solicitous to avoid competition with outside producers. The United States have purchased vast forest reserves in order to control floods and promote navigation, and inevitably trees grow in them. These need not be left to die and rot, but may be sold, and no doubt a railroad may be built to carry them to a market, but Positive Relief For Itchy Skin Soothing Blue Star Oint ment melts on the skin, sending tested medicines deeply into pores to kill common itch, tetter, rash, eczema, foot itch, ringworm, etc. Money back on first jar, if it fails to relieve,

The word "orphan" is used quite erroneously by most of us, for it is used to designate children whose par-ents are both dead. However, a child ents are both dead. However, a child may be an orphan without this being true. A child with only one parent dead is just as much an orphan as a child with both parents dead. An orphan is a child with one or more of its parents not living. If you are in doubt about these statements, look up the word in any good dictionary.

which they do not want?

After Hitler's soldiers were sent into the Rhineland, the French premier prepared a message for Germany and other nations to read. His words seemed to show that he would like to have a "United States of Europe."

Can such a thing ever be brought about? Perhaps, but in order to do it there will need to be big changes.

In Canada there are no tariff taxes on goods which pass from one province to another, and in the "U. S. A." there are no tariffs on goods passing from one state to another. If a real "United States of Europe" were formed, it would mean the end of

At present, airplanes which fly from country to country are watched at the landing fields, and are searched to make sure that they do not carry goods across the borders without paying tariff taxes. What will happen when airplanes do not need landing fields? Already the autogiro can land just about straight down, and a new model of the autogiro can take off by a kind of "jump" into the air.

the air.

When airplanes take off from roofs or roads, and land on them, the nations of Europe may not be able to force the payment of tariffs. If millions of such planes fly about, it will be almost impossible to keep track of them. That is likely to break down tariff walls in Europe.

People in Europe speak English, German, French, Italian, Spanish, Russian and other languages. This tends to keep them from a true union. A world language, such as "Esperanto." would do a great deal for the "United States of Europe."

ANGLO-ITALIAN TENSION Placed on Scout Council SPURS SHIP BUILDING

Il Duce Orders Speed on 2 Sea Giants, Plans More Submarines.

ROME, May 28 .- (UP)-Premier Benito Mussolini is speeding construction of Italy's two new 35,000-ton battleships as result of Anglo-Italian tension growing out of the Ethiopian dispute, naval officials told the United Press tonight.

The two new sea giants, to be armed with nine 15-inch guns each, may be ready for launching within a year, one at Genoa and the other at Trieste, it was said.

The battleships are intended to give Italy's fleet "offensive backbone" to answer any possible challenge from Great Britain's overwhelming capital ship strength.

Some experts believe it is inevitable that Mussolini will order reorganization and strengthening of the navy which, in addition to, rushing completion of two battleships and the imminent entry into service of two new 8,000-ton cruisers, will include:

1. Construction of 30 new submarines to bring Italy's total to approximately 100.

Italian naval men realize they are greatly outnumbered by Britain but this disadvantage, they hope, will be more than counter-balanced by Italy's favorable geographical position in the Mediterranean in event of conflict.

Continuous reports from Swegles in-dicated that he was in close confi-dence with the consiprators. Early in November 7, 1876, had been chosen for the crime, this date being that of the Hayes-Tilden election. That particular time was selected because it was believed that the excitement incident to the receiving of election returns would shield the ghouls from any possible extension. The Secret any possible attention. The Secret Service men planned to hide in the tomb and allow the ghouls to actual-ly steal the body before pouncing upon them, but the dead President's son, Robert T. Lincoln, who had been taken into the confidence of the detectives, protested against their al-lowing the plot to proceed to the point where profane hands might actually be laid upon his father's coffin. So it was agreed that the criminals should be caught in the tomb while endeavoring to open the grave.

Leave Chicago. The detectives' accomplice, Swegles, reported that he and two of the con-spirators would leave Chicago on the evening before election day, and Tyr-Planned Wisely.

Swegles reported that the ghouls planned to take careful measurements of the distance between the place of burial and the nearest tree, in order that there should be no difficulty in disinterment after the ransom should be paid. Ghouls Examine Hall.

After hiding in Memorial hall for two hours the detectives saw the flare of a bull's-eye lantern flash through the grating of the iron door leading into the outer world. The ghouls were making an examination of the interior of the hall, but, satisfied with their superficial examination, did not at tempt to enter. The next moment the hurried around the base of the monu-ment to the catacomb and again the detectives were left in darkness.

After what seemed an interminable wait, the countersign was whispered through the bars. The detectives open-ed the grated door and went cau-tiously around the hill, drawing their revolvers as they advanced. There was no indication when a vote would be reached on the canal-Passamaquoddy issue as the senate moved slowly today through a long string of amandments placed in the bill by the appropriations committee.

If the amendment is adopted it will go immediately to the house, prob-ably to be placed in the hands of a conference. Robinson's action in converting the resolution into an amend-ment assured a definite decision on the long controversy over money for the two projects.

Long debate on other provisions of the deficiency bill prevented a vote today on two committee amendments which advocates of the canal and Passamaquoddy said would endanger Would Limit Projects.

Disillusioned Girl Hiker Found in Rose Garden

Found in Rose Garden
Bathing her blistered feet in a
rose garden pool near Oakdale and
Lullwater roads, a 17-year-old Spantanburg (S. C.) girl, found by police, revealed a pathetic story of a
hitch-hiking trek which contained
more hike than hitch.

The girl identified herself as Sarah Deason. Between sobs touched
with hysteria, she told the two city
radio patrolmen who discovered her,
a forlorn figure, sitting on the
edge of the pool Wednesday night,
that she left her home several days
ago in an effort to find work.
She hitch-hiked to Montgomery,
but could not find employment, and
then decided to continue to Athens,
the home of relatives. But she walked most of the way, arriving in Atlanta with tired, blistered feet.

The radio patrolmen who found
her turned her over to DeKalb
county authorities, and she was
placed under the care of a matron
at the DeKalb county jail. A vagrancy charge was lodged against
her, but this will not be pressed,
police said.

Meanwhile, police communicated

Then corrected by the story of reckless driving in this country and in this state and city. Seventy-four deaths with in the city limits of Atlanta last year, 29 already this year and eight this month. A fine record.

And those are not mere numbers.

They are human lives.

35,000,000 Copies

"Among the recent yield of horror stories," Carroll writes, "none has been held in such high public esteem as 'And Sudden Death.' At last report, this sanguine testimonal to murder-on-the-highway had been reprinted up-wards of 35,000,000 times, and was was still going strong. In it, the au-thor relates in no mean words how eyeballs are skewered from sockets, splintered bones run through living flesh, skulls scalped and crushed, and blood mixed with gear-levers and

"But despite Mr. Furnas' able literary job, there is nothing extraordinary in the fact that 36,100 souls were bagged—what is really astonishing is that the figure wasn't 361,000 or even 2,810,000.

NEW YORK, May 28.—(***)—Trapped by a piece of string, the perpetrator of what appeared for several days to be a "perfect crime" tonight faced a mandatory death sentence for the murder of Nancy Evans Titterton.

Rejecting his dual defense of alibitand insanity, a general sessions jury

strangling her with her own pajamas.
Riorenza, dull-eyed, taciturn upholsterer who overlooked a bit of cord when he removed the traces of his crime, was remanded to the Tombs until June 5, when he will be consigned to the electric chairs of the stranger to the electric chair at Sing Defense Counsel Henry who had grown steadily more optimistic as the hours ticked away with no word from the jury room, said: "An appeal is mandatory under the law and the law will be complied

with."

Klauber expressed hope he would win a new trial for his client on the ground the jury was not permitted to consider a manslaughter or second-degree murder verdict.

WOMAN IS INJURED. WOMAN IS INJURED.

ST. PETERSBURG, Fla., May 28.
(P)—Marietta Meeth, 72, was treated at a docal infirmary today because she reached for her purse. She was driving an Austin. As she sought her pocketbook on the driver's seat, the midget car overtured injuring her midget car overturned, injuring her painfully but not seriously.

WEST POINT, Miss., May 28.—
(P)—Co-operation of the press, the pulpit and the home to keep down the spirit of mob action was urged today in an address before the Mississippi Council for the Prevention of Lynchings by Mrs. Jessie Daniels Ames, executive secretary of the organization.

She declared these three groups were powerful influences in life and asked their co-operation to "wipe out

The ultimate objectives of the council were outlined by Mrs. L. W. Alford, chairman of the state council, 1. To conduct four institutes in the state

2. To secure the indorsement of sheriffs.
3. To increase the number of women committeed against lynchings by 1,500 and to increase the number of

men by 500.

4. To secure the indorsement of four additional state organizations.

5. To give immediate publicity to causes behind every lynching.
Dr. Arthur Raper, professor of sociology at Agnes Scott College, Atlanta, said that lynchings bear a relation of economic conditions, and declared that to "finally eliminate clared that to "finally eliminate lynchings, we must get rid of tenant farming, rid of the socially and politically disinherited group we now have among us by making them feel they have some rights and some responsibility."

SYRACUSE, N. Y., Wednesday.—We had a most interesting discussion to end our meeting at Cornell last evening. Besides our visiting committee of organization representatives, most of the faculty were gathered together at supper.

In the College of Home Economics at Cornell they are trying to give a particular kind of guidance, not only assistance in finding a vocation by which you may earn your living, but assistance in developing your own personality and your approach to life. They are stressing the fact that education in any particular line is a tool, not an end in itself, but something you must use to achieve a satisfactory life.

It seems to me that the position of advisor or guidance officer in any school or college is going to require expert training and very careful selection. This is, I think, a growing field which will be open to women, and will challenge the best that is in any woman.

We breakfasted this morning at 7:45 and left at 8:30 for Syracuse. We had a most interesting meeting with workers' education teachers from Rochester, Syracuse and Utica. We will meet with members of the committee, superintendents of schools, labor leaders, etc., at luncheon, and after luncheon Mrs. Morgenthau and I are starting for Fishkill.

It is quite a fong drive, as I plan to stop and see a friend for a short time on the way, but the country is so perfectly beautiful and both of us love being back in New York state. We feel that it is coming home in a wider sense than reaching our country or house, and we find our-selves saying: "After all, our own state is the one we love best."

Strawberry Jam Can Sparkle In Dish and Make Eyes Sparkle.

By FLORENCE La GANKE.

Nancy was making three kinds of strawberry jam. The first variety used commercial pectin. For this Nancy followed exactly the directions given with the bottle of commercial

The second method was the modified The second method was the modified sunshine method. In using this Nancy washed and hulled the fruit. She mixed the fruit with an equal quantity of sugar. Then this was put in a layer on the broiler pan. She set this under the broiler flame or the electrical heating element at the lowest possible degree of heat. The fruit stayed here for 30 minutes. Occasionally Nancy would stir the fruit carefully with a large spocn. She removed

one layer at a time

The third method called for more attention paid to the preserves at the time of cooking.

She made up only two quarts of fruit in a bath. This amount, incidentally, is recommended in all types of jam making. Too large a quantity is apt to burn and get strong in flavor. The berries were washed, hulled and covered with boiling water which stayed on until the water was pink. The water was drained, the fruit, with no additional water added, was put on Mrs. M. H. Clever Atlantans Acclaimed In 1890 Issue of Constitution By Sally Forth.

DESPITE the extreme cleverness displayed during the past few decades, Sally learned recently that the gay '90s were not without a number of ingenious youngsters. This fact was vividly brought home to her when Mrs. E. S. Thompson brought her a clipping taken from The Constitution of the early nineties telling of the prowess of her son, George Marchmont, and his chum, Oliver Bloodworth. The "two enterprising, bright little boys," according to the paper, are "as sharp as steel traps." This tribute was paid them, for they had done nothing less than make, principally from sand, a remarkable reproduction of the Cotton States and International Exposition.

The miniature exposition was complete in all respects with a va-

A N INTERNATIONAL angle has been introduced into the pre-anniversary celebration plans of the centennial of Wesleyan College in the form of a cablegram received from Shanghai by Mrs. Charles J. Haden, a prominent alumna of the famous college.

The cable was sent as a joint message by three former Wes-Jevan students, signed by Madame H. H. Kung, and expressed congratulations from Madame Kung, the former E. Ling Soong; Ma-dame Sun Yat Sen, widow of the late president of the South China republic, who was Chung Ling Soong; and Madame Chiang Kai-Scheck, wife of the former generalissimo of the Chinese army, who was before her marriage Mai

The message is as follows: "It is with regret that I have to forego the pleasure of attending the 100th anniversary of our be-loved alma mater. To those who participate at the celebration, I wish to send my hearty greet-ings. We, who had the privilege of graduating from Wes-leyan College, look back with joy and gratitude upon those days of academic life at our alma mater. To her we are indebted for those lofty ideals which have contributed to the richness of our experience and for our life of greattasks and responsibilities in

Mr., Mrs. Blalock Honor Bridal Couple

Miss Anne Dargan, beautiful brideelect and her fiance, Dulaney Fitch, of Bowling Green, Ky., whose marriage is an important social event of Saturday, were the central figures last evening at the buffet supper given by Mr. and Mrs. Wellborn Blalock

by Mr. and Mrs. Wellborn Blalock at their home on Argoane drive.

The lovely interior of the home was beautifully decorated with a profusion of pastel shaded garden flowers. The table in the dining room was covered with a real lace cloth and was graced in the center by a silver epergne filled with red and yellow poppies and was offset at either end by crystal candelabra holding burning tapers.

Mr. and Mrs. Blalock were assisted in entertaining the 45 guests by Mr. and Mrs. Milton Dargan Jr., parents of the bride-elect, and Mr. and Mrs. Edward I., Pugh. Mrs. Blalock was lovely in a black sheer dinner dress trimmed in white organdy, and Miss Dargan was an attractive figure in pale blue chiffon.

As it happens, you are in much better position having bought a phony piece and had it come back on you, than you would have been had you bought a real piece on the "excitement plan" and had it repossessed. You are better off than if you had borrowed from friends and paid cash to the jeweler.

Instead of involving yourself in a mesh of lies, come clean with your girl and tell her how you stand. Remind her that if you had saved all your salary it wouldn't be enough to buy a diamond and she knows that you have spent the works on the good times you have had together. If she is worth a real ring she will sympathize with your embarrassment. unthize with your embarrassment, un-derstand how a bad mixtures of love and false pride betrayed you.

CAROLINE CHATFIELD.

CAROLINE CHATFIELD.

DEAR MISS CHATFIELD:

My boy friend tells me he loves me and I believe he does, yet he never takes me anywhere. Every time I have a date with him he refers to the show he has seen in the afternoon. Don't you think he should invite me to go with him occasionally. Even though he can't afford two tickets for every show, he could sacrifice a few afternoon performances and save enough to take me with him occasionally. I am crazy about him and will do anything in reason to keep him. Can you help me?

SHORTY.

SHORTY. ANSWER:

Don't pin your hopes to the affection of a boy friend who goes alone to the movies in the afternoon and entertains you in the evening with tales of what he has seen. Even a selfish man wants his lighto'-love to sit close to him at the flickers, where they can squeeze hands when the love scenes are on, giggle over the funny passages and sniffle over the sad ones. It costs a boy nothing to make love but it costs the girl a lot to believe the love-talk unless it is backed up with actions which speak much louder and with more authority.

A BAD PRE-EMPTIVE BID.

From time immemorial one of the major points of difference in the bidding of bridge hands has been on the subject of preemptive bidding. Players who are in the most complete agreement on a system of bidding as a whole, split into two distinct schools where preemptive bids are concerned, the first maintaining that virtually all preemptive bids are unwise in that they shut out the partner more effectively than they do the opponents; the other school just as stoutly insisting that the bids, properly used, are of enormous value.

Personally I clways have believed that preemptive bids, properly used, are valuable, but it cannot be denied that they have been more greatly misused by average players than any other class of bids. This is, in part, my reason for introducing into the Culbertson system a radically new type of opening three bid, which will be fully discussed in this column shortly.

Shows Final Pre-convention Popular Vote on Candidates and Campaign Issues

Next Sunday The Constitution will present in AMERICA SPEAKS the final pre-convention report on the popularity among Republican voters of leading candidates for the G. O. P. nomination.

AMERICA SPEAKS also will tell you how the average American voter feels about issues that may become planks in major party platforms.

Here's what some of the early voters have to say about the G. O. P. candidates:

Storm Lake, la., farmer: "Knox. He edits a good paper and . . . knows the needs of all the people."

Jersey City cableman on relief: "I'd vote for anybody the Republican party puts up against Roosevelt."

> * * * Oklahoma oil

worker: "I like Hoover. He could have made recovery in another year."

* * *

Rockford, Ill., printer: "If Landon can run Kansas he can run Washington." * * *

Shreveport, La., ex-Democrat-farmer: "Borah. He is nearer a Democrat in prin-

ciples than the one we got." * * *

Michigan house-wife: "Vandenberg. He's not afraid to say what he thinks and stands up for what he thinks is right."

Would you like to know how the nation's Republicans as a whole feel about their prospective candidates? Would you like to know how the average voter feels about major issues confronting the platform makers? Then read

MEMPHIS, Tenn.. May 28.—(P)—
Barney Welsh, of Washington, D. C., holder of the national public parks tennis singles championship, will be a strong contender for honors in the Southern Lawn Tennis Association tournamen which opens at the Memphis Country Club June 2.

The tournament committee said today that should the United States drop the Davis cup series to Australia, Grant may appear here.

SEM YORK, May 28.—(P)—Ira Hanford, little Omaha apprentice jockey who rode to fame aboard Bold Venture in the Kentucky Derby, enjoyed his best day since his triumph at Churchill Downs when he scored with three of his mounts at Belmont Park today.

Ira did not have a mount in the three-horse feature race, won by J. B. Partridge's Prince Abbot but he took the first and third with the Wheatley stable's Crop and Drawbridge and accounted for the closing number with Harry Neusteter's Mask-ed Gal.

Giants Drop Twin Bill to Bees---Cards Take League Lead

on five straight hits.

The St. Louis Cardinals lost their second game in a row to the Pittsburgh Pirates today, 7 to 2, but regained undisputed possession of the National league lead in St. Louis.

The defeat, tying up the series with the Pirates, left the Cardinals a half game head of the New York Giants, who dropped both halves of a double-header to Boston.

header to Boston.

The Brooklyn Dodgers sank the Phillies back into the National league cellar again with a six-run relly in the ninth, after the Phils had gone out in front by scoring five in the seventh. Johnny Moore hit his ninth homer of the season for the Phils. The score was 13 to 10.

The score was 13 to 10.

With the proceedings enlivened by two fist fights at home plate which resulted in the banishment of Shortstop Woody English and Coach Roy Johnson, of the Cubs, and Pitcher Lee Stine and Coach George Kelly, of the Reds, Chicago hammered out an 11-to-5 victory over Cincinnati.

Buddy Myer Set To Wage Battle For Batting Title

WASHINGTON, May 28 .- (P)-Hampered all season by a stomach ailment that brought on a batting slump, Buddy Myer today pronounced himself well again and ready for a hot pursuit of those seeking his Amer-ican league batting crown.

"I've lost a lot of ground and of those heavy hitters are far out in front but I'm going after 'em," Buddy vowed today as he sat in the dugout awaiting the start of Washington's double-header with the A's.

double-header with the A's.

"I'm feeling much better now and I hope I'll be able to hit at my normal pace from now on," he said.

The sturdy little Washington second baseman got off on the wrong foot this season. After three weeks he was batting only .215. Then his stomach trouble became so severe he was forced out of the lineup. He's been ball at a .321 pace since his return.

He went into today's game with a .241 He went into today's game with a .241

repeat when the campaign opened and now he regards himself as even more of a long shot.

He feels badly over what his elump and absence has cost Washington. He thinks that if he had played his normal game all year the Senators would have four or five more victories and would be battling for the league lead. And a survey of the times his bat has failed at critical stages, and of the runs let in by occasional fielding lapses, bears out Myer's estimate.

A BIT EMBARRASSING.

To one who has passed the thirtieth milestone, it was a bit embarrassing to read in the prints of yesterday the Dionne quintuplets have earned \$250,000 at the age of two years. And had received a contract for another \$250,000. By the time they are three years old they will have earned \$500,000. The fact there are five of them doesn't alleviate, to any extent, the em-

NEW YORK, May 28.—(P)—Robert Sweeny, the tall, 25-year-old American who scored the biggest upset of the British Amateur golf championship at St. Andrews by beating Jack, McLean before suffering elimination himself in the sixth round today, still maintains his golfing connections in this country although he considers London his home.

He is a member of the Sands Point Club, Port Washington, L. L. and left here only a month ago after a vacation in this country during which he played in the invitation tournament at Augusta, Ga., April 3-6.

Born in California, Sweeny has lived in New York, Paris and London. He attended the Canterbury school in New England, where he pitched on the football team and was an outstanding diver. In Augusta Masters'.

ARVEN TOURNEY QUARTER-FINALS

THOMASVILLE, Ga., May 28.—
The annual president's cup golf tournament of the Glen Arven Country
Club of this city, a handicap affair,
will begin Sunday morning with the
first round of play to be completed on
that day and the competition to continue two days out of each week until
the tourney is completed.

PARIS, May

Frenchmen, a German and a Swiss
marched into the quarter-final round
of the French hard court tennis championships today, catching up with
Great Britain's Davis cup aces, Fred
Perry and H. W. (Bunny) Austin,

the tourney is completed.

The tournament is open to women as well as to men.

The president's cup tournament was originated in 1930 when Judge James W. Ewing presented a beautiful cup for the event. The cup at this time is to be donated by C. K. Wall, president of the club, and will be a replica of the cup given by Judge Ewing.

Plans are also being made by the Glen Arven officials looking to the annual Glen Arven invitation tournament, known also as the Fourth of July or the Piney Woods tournament. It is hoped to make this year's tournament the greatest success of all previous affairs of this kind. George Converse, of Valdosta, is the present Phology Woods champion.

Perry and H. W. (Bunny) Austin, who had been a step ahead of the field.

Carrying the Tri-Color forward were Christian Boussus, Marcel Bernard, Andre Merlin and Bernard Destremeau. Baron Gottfried Von Cramm kept Germany in the running and Boris Maneff, a virtual tennis unknown, gave Switzerland a place in the last eight.

Quarter-final pairings will send Destremeau against Von Cramm and Austin against Bernard in the upper half; Merlin against Boussus, and Perry, the defending champion, against Maneff in the lower.

CHAMPS FACE TEN-GAME TRIP WITH BIG LEAD

Thomas Goes After No. 8 Saturday; Double-Header Sunday.

Bobby Durham, the human barrel, sometimes called the little rotund member of the Cracker pitching staff, will fire both barrels at those Chattanooga Lookouts in the first of a four-game series tonight at Chatta-

nooga.

Durham won his eighth victory of the season Wednesday, entering the final game of the Memphis series in a relief role. He pitched one and one-third innings. Paul Richards' homer with one on in the eighth enabled him to get the credit.

All Bill Schmidt's efforts were nullified when he filled the bases in the first half of the eighth, with two away, and Moore yanked him. The Crackers were ahead, 4 to 3, at the time.

And so Durham will plod out after

And so Durham will plod out after his ninth win tonight at Chattanooga, land of the free and the home of the brave Joe Engel.

THOMAS SATURDAY.

The Crackers will rely on Bud Thomas in Saturday's game. Uncle bud, having won seven games, will seek his eighth.

A double-header is scheduled Sunday. Schmidt will hurl the first game, with Billy Bayne, the left-hander, scheduled to work the second.

Prediction: One of these days Jim Lindsey is going to start another game. But don't gamble on the opinion of a fellow who seldom picks a winner in football season.

History man repeat itself, however. Lindsey pitched and won one of the games at Knoxville on the first trip of the season. He ought to be sufficiently rested to go back against those Smokies. He has been raring to go for weeks.

Smokies. He has been raring to go for weeks.

The Crackers leave town with a commanding lead. But they may run into trouble on their second visit to Chattanooga, Knoxville and Nashville.

The Lookouta, headed by big Freddie Sington, have been showing a lot of punch at the plate. Taft Wright and Harry Taylor, also former Crackers, are socking the baseball.

Knoxville has not been setting the woods on fire in pitching, but the Smokies have been hitting, in spite of what people think.

The Nashville Vols have been getting both the hitting and pitching. And they are unusually tough in their "mountain goat" retreat, which is known as Sulphur Dell.

Price changes were small in the spot markets, which average near 11.60 cents, compared with near 12.40 cents a year ago. Selling of loan cotton has made rapid progress. Cotton mills continue active. Exports Tobacco is quoted at steady prices on the New York Exchange at 19c for bright and 14c for burley. Exports to England show a 20 per cent gain for the first quarter of the year.

STRAWBERRY.

The eastern shore of Virginia and Maryland is still suffering from the most severe drouth in recent years. Quality and size of the strawberries have been affected by unfavorable weather and volume reduced to only slightly more than half of last year. Shipments of South Carolina pota-toes have become fairly heavy. Dry weather during the growing season injured the crop and prevented a good stand in many sections. Average yield probably will be considerably less than 80 barrels per acre.

BUTTER.

Arrivals of butter at leading markets showed increases over recent weeks but were rather satisfactorily cleared with only fractional price changes. Stocks of storage butter increased rapidly and buyers were generally cautious. Cheese market was firm.

Fairly good demand and lighter storage supplies tended to offset the liberal supplies of eggs and prices showed little change. Output of chickens by commercial hatcheries is considerably above that of a year ago. Poultry markets were irregular, live chickens mostly firm but dressed prices barely steady to weak.

Price trend of feeds continued downward under dull trading, average declining 7 per cent within a month.
Wheatfeeds were offered more liberal-

Wheatfeeds were offered more liberally in the Atlanta territory but takings were light even at the lower prices. Bran brought around \$25 per ton in Atlanta and gray shorts \$31.

Unusually light stocks of cottonseed meal was the main influence in a 50-cent rise at the principal markets. Meal of 41 per cent protein was quoted \$21 to \$23.50 by southern mills. Linseed meal held about steady but soybean meal was irregular. Gluten feed and meal held about steady but hominy feed declined \$1 or more at the large markets. Distillers grains sold at \$22.75 per ton at Atlanta.

NEW YORK, May 28.—(P)— Drifting with the tide, the stock mar-ket today bumped into small profit-taking reefs.

A few of the aircrafts and special-ties kept to the leeward side of the move for gains of fractions to a point or more, but the so-called leaders dis-played little resistance.

While the news was not particularly bearish from a market standpoint, it apparently was uninspiring so far as the generar run of traders was

Encouraging to the analysts was the fact that the list slipped back into the doldrums on the selling trend. This indicated to some commentators that stocks were still in fairly strong hands. Pre-holiday influences induced the evening up of accounts by some of the speculative forces.

They pointed out, however, that earnings of some of the companies were not quite keeping pace with output owing to growing costs. There were also warnings sounded against possible tax legislation that might retard progress.

Of principal concern to the financial sector was the controversy at Washington over the proposed corporation revenue measure.

CHICAGO, May 28.—(P)—Arthur W. Cutten, who rose from bookkeeper to become one of the world's greatest grain speculators, is through with the

grain speculators, is through with the market.

Too ill to discuss his plans himself his wife said today that a heart ailment from which he has been recuperating since last December would "never again permit him to take an active part in business affairs."

Ironically, enough, the United States Supreme Court less than two weeks ago gave Cutten a clean alate to continue trading after the grain futures administration sought to bar him from the nation's commodity exchanges for two years.

It affirmed a ruling by the circuit court of appeals of Chicago which acquitted him of charges that he failed to report his holdings in 1930 at 1931 for the purpose fo manipulating prices.

As Old Timer carried the girl away from the pygmy village into the forest, his heart surged with love. He had found her! He had saved her! Even the terrors of the jungle which lay ahead were forgotten in the ecstasy of his gladness; but soon he must face grim reality.

They hardly spoke, so tense was each of them. At last Old Timer set her down. They could make little progress now while darkness hung over the forest. They must seek some restful refuge from the beasts that stalked this trail and from the pygmies who might pursue them.

After a long search, the man found three nearly parallel boughs. He cut small branches, laid them crosswise, and covered them with leaves. This crosswise, and covered them with leaves. This was Kali Bwana's bed. Then he groped about until he discovered a place for himself in the lower branches of the tree.

girl, came mournful, plaintive sounds. "Jerry!

Jerry!" she sobbed.

By Edgar Rice Burroughs

Presently he heard the regular breathing which denoted that his exhausted companion slept. But Old Timer lay awake, thinking of her, wondering if they would ever reach safety. Then, from the

U. S. AIR FORCES BEST Bust of Judge Candler is Un-MONUMENT TO RANDALL veiled as Birthday Ex-

LONDON, May 28—(P)—The United States naval air forces are 100 per cent ahead of Great Britain, Admiral Sir Roger Keyes told the house of commons today.

The reason, Sir Roger said, is because the American navy has divorced itself from outside control in the development of its aviation.

His assertion came during a frank, critical review of the British naval position disclosing they intend to request battleship construction as soon as the 1930 London naval treaty is dead and are seriously concerned over Japan's cruiser strength. the admiralty, announced the British have no intention of invoking the "escape" clause of the naval treaty in respect to cruisers.

WORLD OIL MONOPOLY AIM CHARGED BY BORAH

Sanction of Corporate Price Fixing Flayed in Washington Talk.

WASHINGTON, May 28.-(P)-In his heralded "last word" before the republicans meet, Senator Borah, of Idaho, said tonight some Standard Oil companies "have been extremely active in this pre-convention campaign."

"Their representatives will sit in the convention," he proceeded. "Some of us shall be interested to know where they throw their support."

The senator, in a radio speech, mentioned none of the candidates for the presidential nomination and left open whether he would take an active or a passive role in the campaign if he himself is not named. Speculation Stirred.

His conclusion, which stirred spec-ulation at the capitol, spoke of having combated monopoly for years and

"The evidence is now all about us.
We cannot be uninformed as to the situation. What the party does under present conditions, therefore, I must regard as final."

By way of illustration, he read a letter which he attributed to an independent oil company.

dependent oil company:

"The Standard Oil and four other companies are out to secure the monopoly of the world's oil production. They have it now in the United States. We who are known as independents are permitted now to follow the oil business with the grace of the Standard Oil and its associates."

Ciates."

Activity Is Claimed.

Then came the reference to "these oil companies, or some of them" having been active in the quests by Borah's rivals for delegate support.

Efforts of the party would be fore-doomed, he warned, unless the candidate and platform are free of "the insidous, deadening coils of monopolistic and corporate interests" which he said have drained republican energy and courage until "the party is fightand courage until "the party is fight-ing for its very life."

As throughout his unavailing campaign for a big bloc of delegates instructed for his presidental nomination Borah inveighed against old guard leaders. Registration figures have

tion Borah inveighed against old guard leaders. Registration figures have shown a big drift away from the party, he said, attributing this to distrust of the leadership.

"An effort is being made to convince the people that to vote for the republican party does not mean we are going back," he said, and asked:

"Why is this fight being made by Mr. Hilles, Mr. Roraback, Mr. Schorr and Mr. Brown, and the powerful financial and corporate interests behind

going back? That is their great objective."

Charles D. Hilles, J. Henry Roraback and Walter F. Brown are the republican national committee members respectively for New York, Connecticut and Ohio. Ed D. Schorr is the party chairman for Ohio.

At the outset of his national broadcast, Borah made clear that he considered the identity of the candidate more important than the platform.

"The position of the party and the possibilities of success will be determined by the candidates," he said.

Views Are Revealed.

After digressing briefly to repeat his well-known position against becoming embroiled in foreign controversies or making alliances, the Idahoan developed his views on the republicant contention that the constitution

versies or making alliances, the idano-an developed his views on the repub-lican contention that the constitution is endangered. Such arguments will avail little, he argued, unless accom-panied by constructive proposals to alleviate destitution, the debt burdens of farmers and to help independent husiness. Social and economic problems are

Social and economic problems are intertwined these days with those of government, he said, continuing:

"If we are not prepared as a party to strike down monopoly and price-fixing, to take this action in order that men may enjoy economic freedom, that purchasing power may be restored to the masses—the answer to the farmer hunting for a market and labor hunting for a job—if we are not prepared to deal with this issue, which means bread and clothing and opportunity to millions, we

issue, which means bread and clothing and opportunity to millions, we will get nowhere with the discussion of political liberty, or of constitutional government as a campaign issue. "If one quarter of one per cent of all the corporations in the United States, as they have and do, control one-half of all corporate wealth and fix prices on many of the most essential things in our daily living, then, as to the most vital things of life, the means and standards of living, concentration of economic power is already established; and, if continued, concentration of governmental power concentration of governmental power to meet the stuation will inevitably follow."

Legality of Price-Fixing.

At another point, he asked:

"Will we long, as a people, be able to maintain a situation under a constitution which declares you may not fix prices on the farm or in the home because of state lines but private corporate interests may fix prices throughout the entire country regardless of state lines?"

Referring to the existing poverty in the midst of plenty, Borah demanded to know whether the republicans would meet the problem openly or—"under the malign influence of organization politics"—seek to circumvent effective action.

He said monopoly was well known to have great influence in party councils, a situation which had to be changed to stand a chance of political success. At present, in the Borah view, the party is at its lowest power in history and "the time is ripe for an accounting and a dissolution of the partnership."
